

WEEKLY REPORT

This week we all continued making progress in our individual parts of the website. In the Mintr page the navbar and image slideshow were created.

In one of our individual parts regarding the BscScan (main page only) , 50% of the front-end has been successfully created and is partially responsive.

Original website:

The screenshot displays the BscScan website interface for the Oikos Network Token (OKS). The browser's address bar shows the URL: `bscscan.com/token/0x18aCf236eB40c0d4824Fb8f2582EBbEcD325Ef6a#comments`. The BscScan logo and navigation menu are at the top. The token page features a header with the token name and a search bar. The main content area is divided into two columns: 'Overview' and 'Profile Summary'. The 'Overview' section provides key metrics: Price (\$0.01), Fully Diluted Market Cap (\$2,495,365.15), Total Supply (188,034,333.369522 OKS), Holders (1,006 addresses), and Transfers (15,649). The 'Profile Summary' section lists the Contract address, Decimals (18), Official Site (<https://oikos.cash/>), and Social Profiles. A promotional banner for 'Last Chance to Register!' is positioned below the overview section. The bottom of the page includes a cookie notice and a Windows taskbar.
