

Weekly Report

- 1) This week we each started working on our part of the website that we had previously distributed amongst ourselves.
- 2) We are successful in making navbar of one of the page

- 3) We are somewhat slow in making the website as we are in the learning phase and getting some errors and solving those errors takes time.
- 4) We made mistakes like using **class** in **JSX** in place of **className** attribute, **using in-line styles**, **missing `<>` `</>` while returning** the code and many more silly mistakes. We learned from all these mistakes...
