Problem Statement
Clone of Oikos Cash Dex. Oikos is the tron base decentralized exchange which allows to trade the users anytime. this very reliable and fast ecosystem to grow up and reliable to investor, they have worked.

Work Done in Week 4
- This week we all understand the structure of React projects.
- We could not complete many tasks this week, as we had our Internal Assessment Test-1 which will end on 23rd Aug. We will make it a point to complete the tasks of the previous week as well as the upcoming and make significant progress towards completing our project.
