KubixSquare July Internship

Frontend Group 8: Clone oikos-cash-dex

Team Members:

1) Aditya Ghadge
2) Roslin George
3) Sanika Acharya
4) Manjot Kaur
5) Shruti Kamath

Final Report:

1) First, we started learning JavaScript and ES7 which would be helpful for understanding ReactJS
2) We also learned about GitHub
3) After learning JavaScript and ES7 we started learning ReactJS from various sources like Udemy, Code with Harry, W3 schools, etc.
4) Then we divided the tasks individually and started working on it.
5) After completing individual code, we merged it and got some errors but not get any time to solve that.
6) The project has been uploaded to GitHub and invited collaborators as per instructions.
